## COVID-19 CORONAVIRUS LETTER TO CUSTOMERS

Dear Customer,

In these trying times I would like to express my gratitude for how all of our employees, customers and suppliers have come together as one, over this last week to fulfil the commitments we have collectively made to customers so our communities needs are met. A great sense of togetherness has been demonstrated in these extremely challenging and unprecedented times that we find ourselves in. We are all in this together and we will support each other through it.

Doing the right thing is at the core of how we operate as a business. Therefore, safeguarding the health and wellbeing of our valued employees, their families, our customers and our wider communities is of paramount importance to us in the fight against COVID-19. To do this JP Corry will **be closed from 5pm on Thursday 26th March until further notice.**

Giving support and help to our communities and those who need us most has always been of high importance to JP Corry. So when asked, with backing of our government, to support our emergency services, such as the NHS to allow for emergency construction work to support their fight against COVID-19, we agreed.

In order to facilitate this several of our branches will **remain 'on call' to deliver essential supplies to support these emergency works.**

In our commitment to assist in the fight against COVID-19 all of our operations will be carried out contactless abiding by the government advised hygiene and social distancing guidance.

For any other enquires including accounts payable etc. please contact [info@jpcorry.co.uk](mailto:info@jpcorry.co.uk) or call 02890 260 260.

We would appreciate your patience, support and understanding at this very difficult time and refer to our social media platforms and website for further information.

#staysafe #stayhomesavelives
