

PRODUCT DATASHEET

RECOMMENDED FOR USE IN:

Carriageways carrying continuous heavy traffic in areas subjected to high surface water run off.

Featuring a double triangular grating design for durability, the Waterway range of D400 gratings provides efficient water clearing performance. In its larger sizes the Waterway range is particularly suited to applications such as catchpits, carriageway verges or surface water catchment areas.

DURABILITY

Includes the Load Transfer System (LTS) for optimum installation and product durability

WATER CLEARING EFFICIENCY

An efficient water clearing capacity aids the effective removal of surface water

ACCREDITATION

Third party certified by BSI and kite marked to the requirements of BS EN 124. Compliant to the requirements of Highways England advice note HA104/09

SAVE TIME & COST

Most sizes are available with the Install Plus frame levelling and installation system as standard

PERFORMANCE

Double triangular grating utilising 3 points of suspension to ensure it is non rock and silent in use
